

Mexico

April 21 - May 1, 2012

Mexico City...

...is one of the largest cities in the world, a center of Latin American culture, a place of historical and anthropological sites and a center of great riches. It is also at the heart of the social and economic problems that plague Mexico, making it a home for a host of courageous people working to make a better life for themselves, their families, and their neighbors.

A countryside visit...

...is a few hours from Mexico City and will provide a close-up look at rural challenges. Program participants can examine current concerns, and learn what happens to families and society when men emigrate north.
